PRODUCT DATA SHEET.
The content of this Data Sheet is given in good faith but without Warranty.

RYE UNIVERSAL TRACTOR OIL.

1) Description. 10 W/30 or 20W/30 detergent/dispersant oil for agricultural tractors.

2) Application. Naturally aspirated diesel engines not requiring Series 3 or MIL-L-2104C oils
Four stroke petrol engines of the older design, some tractor transmissions and hydraulic systems
Not for Axles incorporating oil immersed brakes.

3) Advantages. Cost effective lubricant for non wet brake tractors.

4) Classification
   API CC/SD
   Military MIL-L-2104B

5) Qualities. High viscosity index.
   Low pour point.
   Good detergent/dispersant properties for sludge and deposit control.

6) Typical characteristics.

COSHH DATA SHEET.
The content of this Data Sheet is given in good faith but without Warranty.

RYE UNIVERSAL TRACTOR OIL.

1) Product. Application.
A 10W/30 or 20W/30 detergent dispersant multigrade oil.
Crankcase and engine lubrication. Used in some hydraulic and transmission systems, and in older Tractor engines.

2) Composition. Physical Data.
A highly refined mineral oil with multi functional additives.
Amber/brown liquid. Not miscible in water.
Boiling point >200°C. Specific Gravity <9.

3) Fire Hazards.
Flashpoint >150°C. Auto Ignition Temp >200°C.
Extinguishing media CO2, Dry Powder, Halon, Foam.
Hazardous combustion products include, oxides of carbon, water vapour, and unidentified organic compounds.
Special fire fighting procedures include 'self contained breathing apparatus in confined spaces. Strong oxidisers are incompatible materials.

4) Toxicological Data.
TLV 5 mgms/3 (as oil mist). Prolonged contact may cause skin irritation.
Effect on the eyes, irritation. Hazardous by-products include small proportions of phosphorus and sulphur compounds. Although new oil is considered non toxic, used oil may be carcinogenic and should be avoided.

5) First Aid.
If ingested, do NOT induce vomiting, milk or water may help.
Contact with the eyes, flush with copious quantities of water for 15 minutes.
Contact with the skin, wash with soap and water and approved cleanser.
Inhalation of vapours, remove to fresh air.
Aspiration, highly unlikely unless as a result of vomiting, seek URGENT MEDICAL ATTENTION.

6) Storage/handling
Store in temperate conditions away from sources of heat. Avoid eye contact and contact with the skin, wear gloves, use barrier cream, Wash contaminated clothing.

7) Spillage/Disposal.
Soak liquid in absorbent material and collect solids in a container.
Incinerate or land fill in accordance with local regulations.
